

PRACTICAL-5

Aim: To perform iterative prompting to improve an email drafting assistant for business communication over three steps.

Description: This practical introduces iterative prompting where prompts are refined repeatedly to improve the quality and effectiveness of AI-generated emails.

Steps:

1. Create an initial email drafting prompt.
2. Generate the first email.
3. Refine the prompt.
4. Generate improved emails.
5. Compare all versions.

Code:

Prompt 1 (Version 1)

Write an email requesting leave for one day due to a medical appointment.

Output 1

Subject: Leave Request

Dear Sir,

I would like to request one day's leave tomorrow because I have a medical appointment. Kindly grant me leave.

Thank you.

Regards,

Rahul

Prompt 2 (Version 2)

Write a polite and professional email requesting one day's leave due to a medical appointment. Mention that all assigned work has been completed and use a formal tone.

**SILVER OAK
UNIVERSITY**
EDUCATION TO INNOVATION

Output 2

Subject: Request for One-Day Leave

Dear Sir,

I hope you are doing well.

I would like to request one day's leave on 15 July 2026 due to a scheduled medical appointment. I have completed all my assigned tasks and ensured that no pending work will be affected during my absence.

I kindly request you to approve my leave.

Thank you for your understanding.

Sincerely,
Rahul Sharma

Prompt 3 (Version 3)

Write a professional business email requesting one day's leave due to a medical appointment. Use a respectful tone, include the leave date, mention work handover, thank the manager, and keep the email concise.

Output 3

Subject: Leave Request for Medical Appointment

Dear Sir,

I hope you are doing well.

I respectfully request leave for one day on 15 July 2026 due to a scheduled medical appointment.

I have completed my current assignments and shared all necessary information with my colleagues to ensure that work continues smoothly during my absence.

**SILVER OAK
UNIVERSITY**
EDUCATION TO INNOVATION

I would appreciate your approval of my leave request. Thank you for your time and understanding.

Kind Regards,

Rahul Sharma
Software Engineer

OUTPUT:

Comparison of Outputs

Feature	Version 1	Version 2	Version 3
Professional Tone	Low	Good	Excellent
Proper Subject	Yes	Yes	Yes
Greeting	Basic	Professional	Professional
Work Status Mentioned	No	Yes	Yes
Work Handover	No	No	Yes
Closing	Basic	Good	Excellent
Overall Quality	Fair	Very Good	Excellent

Conclusion

This practical demonstrated that **iterative prompting** significantly improves the quality of AI-generated business emails. By refining the prompt step by step, the emails became more professional, clear, well-structured, and contextually appropriate. The activity highlights the importance of providing specific instructions to AI in order to achieve accurate, effective, and high-quality communication for business and professional purposes.
